

Silicone Pads - general

SICATECH A/S is a worldwide leading manufacturer of pads, with over 1500 different varieties, the next pages includes our standard pads, but the shapes might vary a little from the picture – please ask if you want a picture of a specific pad

We have many distinct types and shapes of special pads, please ask and we will help you find the best solution for your printing application.

We will be happy to work with you and develop a pad for your needs.

**If we don't have the right one,
we will make the right one!**

Our silicone pads are made standard on wood socket with M6, aluminium or steel socket, but other solutions are possible.

We offer a special customized padholder with magnetic click attachment which makes it possible to change pads in seconds without screwdriver or setup and it is a very short production stop. The system even includes fitted packaging for delivery of pads and return of the steel sockets

Silicone Pads lasts 50 – 100.000 prints in ideal cases depending on:

- Print quality
- Type of ink
- The pads shape, size and hardness
- The parts shape and surface structure

We manufacture printing pads with inserts and cavities. Contact us and we will help you find the right one
