At Sicatech we more than 30 years of experience making pad printing solutions for our customers. Sicatech is known for its quick turnaround and ability to deliver and support the best products on the market. We produce high quality pad printing machines of the best quality and with great attention to details.

The X1 Pad Printing Machine is a PLC controlled machine with technological features to fit a modern production line. With its slim design, it takes a minimum of space in the production line giving faster cycle times.

The unique X-control™ program makes it very easy and flexible to setup your printing process.

All movements can be adjusted and optimized to fit with the individual requirement for the print, respecting that pad printing is a vivid process. With the Viscomix™ option you can control and dilute the ink in-process, maintaining a stabile process window for long production runs.

MX-1 Technical data

Cycle speed	Up to 2000 cycles per hour
Print force	Max. 1100 N
Pad stroke	Max. 150 mm
Print Accuracy	+/- 0,02 mm
Control System	PLC, Siemens S7
Main Voltage	110-240V / 50-60Hz
Communication	Profinet or Digital I/O
Compressed air supply	5-6 bar (87 psi)
Machine Weight	80 kg
No. of colours	1
Cup sizes / Image size	Ø 56 mm / Ø 46 mm Ø 77 mm / Ø 67 mm Ø 86 mm / Ø 76 mm Ø 120 mm / Ø 110 mm Oval cups up to 120/370 mm
Dimensions	See drawings
